**Corian® Solid Surface:
the 2021 Colour Portfolio for Europe, Middle East and Africa (EMEA) ***

This Corian® Solid Surface paper palette is a flexible, handy and lightweight tool composed of high-definition printed paper samples which give a visual impression of what Corian® Solid Surface colours look like.

All printed colours were evaluated and compared to real Corian® Solid Surface samples under a 6000k lighting source.

This operation allowed the most accurate print match with the original material. The printed colours which present an accentuated metamerism, are mainly due to the mineral pigments contained in the inks.

Evaluation under different lighting conditions as well as differences in visual perception, could lead, for some colours, to appreciable differences between paper and material.

It is always recommended to evaluate a Corian® Solid Surface sample before making the final selection.

We invite you to visit www.corian.com, check our online colour tool or ask your Corian® Design sales contact for more information.

* This list is valid from September 2021, until further notice.

Aesthetic Highlights

Corian® Solid Surface aesthetics include a variety of characteristics that deserve particular attention to achieve the best possible result for your project. The following list provides a description of aesthetic characteristics found on each of the following printed colour pages for your reference. It is advisable to evaluate physical samples before making your final selection. For more information, visit Corian.com or consult with your Corian® Design sales contact.

- * **Contains random veins:** veins may vary in intensity and highlight seams. Sample may not represent the full aesthetic.
- * **Linear veined, translucent:** veins may vary in intensity and highlight seams. Substrate shadowing may appear. Samples may not represent the full aesthetic.
- * **Translucent:** substrate shadowing may appear. Ideal for backlit applications.
- * **Contains reflective pigments:** may appear lighter or darker depending on viewing angle.
- * **Heavily pigmented:** may require additional maintenance.
- * **Contains large, randomly distributed particles:** sample may not represent the full aesthetic.
- * **Translucent, randomly veined:** veins may vary in intensity and highlight seams. Substrate shadowing may appear. Sample may not represent the full aesthetic.
- * **Heavily pigmented and veined:** veins may vary in intensity and highlight seams. May require additional maintenance. Sample may not represent the full aesthetic.
- * **Contains random veins and reflective pigments:** veins may vary in intensity and highlight seams. May appear lighter or darker depending on viewing angle. Sample may not represent the full aesthetic.
- * **Heavily pigmented with reflective pigments:** may appear lighter or darker depending on the viewing angle. May require additional maintenance.
- * **Heavily pigmented. Contains large, randomly distributed particles:** heavily pigmented. May require additional maintenance. Contains large, randomly distributed particles. Sample may not represent the full aesthetic.
- * **Heavily pigmented with random veins and reflective pigments:** veins may vary in intensity and highlight seams. May appear lighter or darker depending on the viewing angle. May require additional maintenance. Sample may not represent the full aesthetic.

Colours with letter **D**: made with DeepColour Technology™. Colours with letter **E**: available in Fire Retardant grade (Euroclass B, s1, d0) for exterior cladding applications. Colours with letter **K**: for applications in kitchens and other environments with intense/heavy use (only less noticeable marks may appear and be visible under specific lighting conditions).

Colours with the ♻️: contain recycled material.

NEW COLOURS FOR 2021

Artista Aesthetic

Complexity generates aesthetics with pronounced veins set into neutral grounds. The effect is timeless and contemporary for any application.

Artista Beige - Beige is enhanced with similar tones and shades to create a complex look that adds modernity to the warm colouring of the surface.

Artista Gray - Enduring gray is freshened with the intricate vein pattern within the surface. Dark veins flow through mid-value gray for innovative appeal.

Artista Dust - Dark gray, monochrome elements swirl within the dusky background creating an aesthetic that resonates with multiple design styles.

Artista Canvas - A comforting, warm ivory surface offers a haven for swirling veins set amongst scattered, light coloured particles.

Carrara Aesthetic

Inspired by the eternal marble stone, prominent veins inform a look in cool and warm editions that are simultaneously classic and modern.

Carrara Lino - Beautiful gray veins course through the cool white surface to create a perfect interpretation of classically inspired stone.

Carrara Crema - A warm beige background is enhanced with enticing monochromatic veins that conjures classic stone in colours that comfort.

Sparkling Granita - Translucent and sparkling particles create an effervescent effect in this fresh white surface to convey energy and visual depth.

Sand Storm - Swirling with movement, white and tan elements mingle for an aesthetic subtle in colour, but dynamic in design.
